D-Shelf, a smart shelf based on Johan Sandström's award-winning idea. The clever and simple thing about it is its hidden fixing bar. And the neat thing is its versatile placing possibilities: on the wall, under the staircase, in the closet, on the windowsill or perhaps under the cupboard? Your imagination is the only limit when it comes to gaining an extra dimension.

Stabel-Uby, is a table, seat, .... a meetingpoint, and even rubbish bin.  
Design: Philippe Allaeys
